

The Global Leader in Night Vision

NVIS White - 1" POD LIGHT

Benefits

- Low profile
- Long-lasting LED Technology
- Heavy-duty aluminum construction
- Flat black anodized coating
- Low power consumption
- Low heat output
- Made in the USA

Features

- Rotating mounting brackets (360°)
- Wide angle illumination
- Easy installation
- 28 VDC

The Global Leader in Night Vision

NVIS White - 2" POD LIGHT

Benefits

- Low profile
- Long-lasting LED Technology
- Heavy-duty aluminum construction
- Flat black anodized coating
- Low power consumption
- Low heat output
- Made in the USA

Features

- Rotating mounting brackets (360°)
- Wide angle illumination
- Easy installation
- 28 VDC

The Global Leader in Night Vision

NVIS White - 6" LIGHT

Benefits

- Long-lasting LED Technology
- Durable aluminum construction
- Flat black anodized coating
- Low power consumption
- Low heat output
- Made in the USA

Features

- Rotating mounting bracket (180°)
- Wide angle illumination
- Easy installation
- 28 VDC

Products

231-1001-001	Bracket Mount NVIS Light Assembly
231-1002-003	6" Light (Symmetrical)

The Global Leader in Night Vision

NVIS White - LED UTILITY LIGHT

Benefits

- Long-lasting LED Technology
- Heavy-duty aluminum construction
- Low power consumption
- Low heat output
- Made in the USA

Features

- Ball socket joint enables full rotation autonomy
- Detachable – quick disconnect from base
- Heavy-duty adjustable knob w/tactile feedback
- Linear brightness adjustability from 0 to 100%
- Universal base replacement for majority of existing lights

The Global Leader in Night Vision

NVIS White - MAP LIGHT

Benefits

- Long-Lasting LED Technology
- Heavy-duty aluminum construction
- Rigid 14" flexible gooseneck
- Low power consumption
- Low Heat Output
- Made in the USA

Features

- Flexible tubing stays in place under vibration and where placed
- Heavy-duty adjustable knob with tactile feedback
- Linear brightness adjustability from 0-100%
- Easy Installation
- Flat Black anodized coating
- Universal base replacement for majority of existing lights

The Global Leader in Night Vision

NVIS White - POST LIGHT CAP POST LIGHT STUD

Benefits

- Long-lasting LED Technology
- Durable aluminum construction
- Flat black anodized coating
- Low power consumption
- Low heat output
- Studs available in 28VDC/14VDC/5VDC
- Made in the USA

Features

- Rotating head on 2 axis
- Includes 2 spacers for (4) potential heights
- Easy installation
- Mounts into existing gauge flange
- Wide angle illumination
